

NET FOREIGN INVESTMENT

NFI = earnings on foreign investment + bond purchases – foreign earnings on Amagre investment
= 75 + 200 – 25 = 250 billion G

NET EXPORTS

= exports – imports

= 50 – 150

Net exports = -100 billion G

GPD

“GDP = consumptions + government purchases + investment + net exports” (Bondarenko, 2024)

= 350 + 200 + 100 – 100

= 550 billion G

GNP

GNP = net factor earnings from abroad + GDP

= (75 – 25) + 550

= 600 billion G
